## Welcome to CV!

I am a Full Stack Developer skilled in Next.js with TypeScript, committed to mastering the latest technologies and delivering impactful solutions. An avid learner with a strong foundation in both frontend and backend development, I bring proven experience in team leadership and project management, ensuring smooth collaboration and timely project delivery. Known for my attention to detail and collaborative spirit, I aim to contribute meaningfully to projects that make a difference.

## Education

**KLEF Deemed to be University**                                      *July 2023 – May 2027*
*BTech in Computer Science Engineering with specailisation in DevOps*
- CGPA: 8.6/10

## Projects

### Chitramela - Film Festival Website
- Designed and developed a comprehensive platform for a film festival.
- **Technologies:** Next.js (frontend  backend), MySQL, Docker, Nginx, Ubuntu.
- Deployed using Docker and Nginx for scalability and efficient server management.
- **GitHub Repository:** github.com/dinexh/Chitramela2k25 ↗

### Smart Village Revolution Website
- Built a platform for the KLEF University Prinoor program, showcasing initiatives to support village development.
- **Technologies:** Next.js (frontend  backend), MySQL, Docker, Ubuntu.
- Included a backend system for dynamic updates and data management.
- **GitHub Repository:** github.com/DeepakReddyG/SmartVillage ↗

### ZeroOne Portal
- Created a centralized portal to manage all processes and streamline activities for the ZeroOne Code Club.
- **Technologies:** Next.js (frontend  backend), MySQL, Docker, Nginx, Ubuntu.
- Focused on improving workflow efficiency and collaboration within the club.
- **GitHub Repository:** github.com/dinexh/Cero1PHP ↗
